## **PAINS BAY FIRE**

NC-ALR-111006 PRF3FT (1502)

# Incident Action Plan Tuesday June 21, 2011 0700-1900 hrs

#### INCIDENT OBJECTIVES

1. INCIDENT NAME

PAINS BAY FIRE

2. DATE PREPARED 6/20/2011 3. TIME PREPARED 1830

4. OPERATIONAL PERIOD (DATE/TIME)

Tuesday, June 21, 2011 0700 to 1900 hrs

5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES)

#### **Control Objectives**

- 1. Providing for the safety, health, and welfare of firefighters and general public is our highest priority:
  - Adhere to the 10 Standard Fire Orders
  - Mitigate the 18 Watch-Out Situations
  - Implement and maintain LCES
  - Conduct frequent Risk Mamt. Assessments
- Coordinate with Dare Emergency Management Coordinator if fire threatens Stumpy Point village and evacuations appear necessary.
- 3. Continue to provide LE presence at designated location on US 264 to implement immediate road closure if needed for escape fire and dense smoke/fog conditions.
- 4. Keep fire contained west of US 264, south of US 64 and east of the Milltail Rd / Alligator Rd / Poplar Ridge Rd corridor.
- 5. Provide for initial attack support in areas as designated in the Delegation of Authority.
- 6. Continue to implement written Water Handling Plan. Begin evaluating pumping needs as Water Handling Operations moves from increasing water levels to maintaining water levels to the maximum capacity of the canal/ditch system.
- 7. Ensure that suppression & containment strategies on FWS property follow minimum impact suppression tactics. Any escalation in tactics should consider progress made with current tactics and the likelihood of those tactics being successful.
- 8. Provide for the protection of infrastructure devices, experimental tree plantations, and soil and water monitoring stations throughout USFWS property and infrastructure, structures, targets, laser city, cameras, etc within Dept. of Defense (DOD) land
- 9. Coordinate the identification of potential suppression rehabilitation needs for both USFWS and DOD lands.

#### **Management Objectives**

- Keep general public & local officials in affected counties and incident stakeholders informed of fire status through situational updates and personal contacts.
- 2. Provide for accurate cost tracking and documentation to meet the needs of USFWS and DOD. Ensure financial management conducted per Interagency Incident Business Handbook procedures.
- 3. Emphasize cost containment through continual assessment of personnel and resource needs and the "right sizing" of incident staffing.
- 4. Work to allow military flight operation to as near normal operations, even if for limited time each day when it can be done safely, within FAA regulations and without hindering suppression operations on DOD or USFWS lands.

#### 6. WEATHER FORECAST FOR OPERATIONAL PERIOD

Partly Sunny, Slight Chance of Thunderstorms, Max Temp 88, Min RH 48%, Winds South 5-9 MPH

#### 7. GENERAL SAFETY MESSAGE

#### See Attached Tailgate Safety Briefing Sheet.

HAINES INDEX.....5

MIXING HEIGHT.....3300-4900 FT

TRANSPORT WINDS.....SOUTHWEST 9 TO 17 MPH.

LVORI.....4.

#### **□FIRE BEHAVIOR**

**Previous Fire Behavior-** Fire activity was subdued for most of the day. Ground fire activity did pick up later with the increase in gusty winds.

**Predicted Fire Behavior-** Divisions Kilo and Oscar will receive the most pressure with the forecasted southerly winds later in the day. Watch for torching that could loft embers across control lines. During peak wind gust expect torching and rapid rates of spread, especially after the fire grows much larger than an acre. Be aware of the local sea breeze influence and thunderstorm outflows, this will increase rates of spread and can change the fire direction very suddenly.

Fuels/Fuel Model- Pocosin (Tall Brush) - FM sh9

Rates of Spread-	Flame Lengths-	Probability of Ignition-	Spotting-				
24 ch/hr	13 ft.	42%	0.1 Miles				
6 ch. lower (24 hr trend)	2 ft. lower (24 hr trend)	1% lower (24 hr trend)	No Change (24 hr trend)				
Fuel Moisture- (* indicates new maximum indices may be set for this day)							
1 HR (1/4" or less)	10 HR (1/4"-1")	100 HR (1-3")	1000 HR (3-8")				
8%	10%	14%	*15%				
1% lower (24 hr trend)	No Change (24 hr trend)	1% lower (24 hr trend)	No Change (24 hr trend)				

Predicted Fire Danger Readings- FM G- Fairfield (\* indicates new maximum indices may be set for this day)

		- (		
Ignition Component	Spread Component	Energy Release Component	Burning Index	KBDI
18	7	*39	40	*621
1 lower (24 hr trend)	3 lower (24 hr trend)	1 higher (24 hr trend)	7 lower (24 hr trend)	6 higher (24 hr trend)

**Controllability-** Indirect attack should be used if fires become established. Use of aircraft should always be utilized. Safety of firefighters is of a critical concern.

## UNIFIED COMMAND SAFETY MESSAGE

Incident:

**Pains Bay Fire** 

Date: June 21, 2011

Time: Day & Night Ops

#### Major Hazard and Risks:

- > Helicopter Ops & Bucket Work
- > Complacency
- > Wild & Domestic Animals

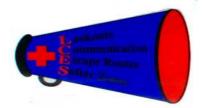

#### Narrative:

- > Assuming helicopter/bucket mission is mandatory like with retardant drops; clear area to avoid overflight, stay away from hazard trees/snags, provide drop location description, know intentions, give feedback.
- > The fire has slowed down considerably. Don't let the lull of fire activity fool you. We're holding a sleeping dragon by the tail. Maintain your situational awareness, practice LCES and always use all of your PPE on every task.
- > 'Ya all been great not feeding the bears or annoying the Gators. We found out that family dogs are also something to avoid. We had 2 dog bite w/in 2hrs. Let's give all wild and domestic creatures a wide berth.

#### STANDARD FIREFIGHTING ORDERS

- 1. Keep informed on fire weather conditions & forecasts
- 2. Know what your fire is doing at all times
- 3. Base all actions on current & expected behavior of the fire
- 4. Identify escape routes & safety zones, and make then known
- 5. Post lookouts when there is possible danger
- 6. Be alert. Keep calm. Think clearly. Act decisively.
- 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
- 8. Give clear instructions and insure they are understood.
- 9. Maintain control of your forces at all times.
- 10. Fight fire aggressively, having provided for safety first.

Your Safety Officers,
Gene Madden and Mike Kretzschmar

### **Pains Bay Fire Information Section**

#### Tuesday June 21, 2011

If you see unescorted media on the fire, please refer them to the Public Information Officer, so an escort can be provided.

#### PIO contact information:

Roger Miller Cell – (828) 499-1911 Radio – Information Miller

Please review the talking points below and share this information with the public, if you are asked questions. Refer reporters to the Public Information Officer.

- The Pains Bay Fire has burned 45,294 acres on Alligator River National Wildlife Refuge and the Department of Defense, Dare County Range. The fire is 95% contained.
- Ground fire intensity is increasing as the peat dries following light rain receive late last week. Hot, dry weather is predicted for this week.
- Firefighters are continuing to pump water to extinguish ground fire along containment lines on the perimeter of the fire.
- High volume pumps are used to move water through a system of canals to extinguish the burning peat by flooding blocks of land.
- It takes 163,000 gallons of water to cover one acre of land with six inches of water.
- As areas along the perimeter are secured, some pumps will be moved to direct more water to interior areas along Jackson Road.
- Even with all the pumps running, it is not possible to extinguish all pockets of burning peat within the 45,000-acre Pains Bay Fire area.

Several meetings are scheduled next week in Dare County to brief the public on ground fire and smoke. Here is the meeting schedule.

•	Tues. June 21	10:00 a.m.	Rodanthe-Waves-Salvo Community Bld.
•	Tues. June 21	2:00 p.m.	Dare Co. Admin. Bld. on Roanoke Island
•	Wed. June 22	10:00 a.m.	Kern P. Pitts Center, Southern Shores
•	Wed. June 22	2:00 p.m.	Kill Devil Hills Town Hall
•	Wed. June 22	6:00 p.m.	Manns Harbor Fire Dept/Community Center

- Maintain and improve current pumping operations.
- Evaluate flooding opportunities East of Stomper Road.
- Implement flooding operation East of Faircloth Road.
- Identify hazard trees and mark with appropriate flagging.

#### 8. Special Instructions

- Assess and evaluate the water handling operation for future downsizing. Report findings to Planning OPS.
- Ensure pump logs are turned in daily to Finance.
- All supervisors ensure that personnel maintain safe distances during all air operations.
- Winching: Analyze each situation before you act. Pay attention to hand location, maintain a safe distance from cables under tension, and maintain communications between operator and crewman.
- Excavator Work: It's your responsibility to stay clear. The excavator can swing 360 degrees in about one second. Before approaching, make eye contact with operator and allow him to idle down and come to a complete stop.
- Dump Truck Operations: Dump trucks have reduced visibility. All trucks should use a spotter while backing. At no time should anyone be behind a backing Vehicle!

- Support extended attack or new large fires on FWS lands in FWS District 1 (Mackay Island, Currituck, Roanoke River, Pocosin Lakes, Swanquarter, Mattamuskeet, and Cedar Island NWRs).
- Gyro-Traks will be brushing out Pollock Road between Koehring and West Wigeon Road junctions supported by the two engines.
- Resources will be dispatched by FWS through IC T. VanOrmer.
- Equipment staged at Alligator River Work Center will standby for IA response.
- Identify hazard trees and mark with appropriate flagging.

#### 8. Special Instructions

- Gyro-Traks and engines will work together. If the engines are dispatched for IA, the brushing operation
  will stop until replacement engines are on scene. OSC will coordinate replacements from other
  divisions.
- All supervisors ensure that personnel maintain safe distances during all air operations.
- Limit use of foam within 100' of any water surface.
